Gents,  
I was also able to revert the last 'large' chunk of [REDACTED] k. Can you please distribute that via [REDACTED] also?

Thanks  
Brad

Hi Brad,

We have initiated the withdraw of [REDACTED] M to our [REDACTED] account,

once we receive it we will wire the money to your account.

Best,

Hi Brad,

[REDACTED] and/or [REDACTED] will take care of it today. I'll be back at work by  
Tuesday morning.

Cheers,

Hi Team,  
I reversed an additional [REDACTED] m. Can you please pay that out  
through [REDACTED]?

TY

Hi Brad,

In order to proceed with the payment through [REDACTED]

1) Kindly reverse the USD Bitstamp payouts to the  
originating wallet.

To reverse the payout, in Bitstamp > click Withdrawal >  
IOU (BTC, USD)

The destination Ripple USD address for 42t is:

Bitstamp has a limitation of USD that can be withdrawn per  
withdrawal of their cold wallet amount. You can check the  
current maximum amount here:

In Balances > \$USD you can check the maximum amount  
that you can do per withdrawal, so you might have to split  
your withdrawal. When their cold wallet is near empty, the  
wallet will get refilled in about 15 minutes usually.

2) Please send us your full bank account wire info.

I am available for any help.

Kind regards,
